(Redirected from Compaq Presario 5000) Presario is a discontinued series of desktop computers and notebooks from Compaq. The Presario family

of computers was
launched for the
consumer
marketplace in
September 1993.
In the
mid-1990s,
Compaq began
manufacturing PC
monitors as part
of the Presario
brand.

Many Compaq
Presarios are
identified on
the front of the
computer by a
series number
rather than the
actual model
number. For
example, your
Presario may be

labeled with 5000 on the front of the case, but it is actually part of a 5000 series PC. The correct model number may be 5WV283.

Compaq Presario 5000 PC Desktop Computers turns on and turns off in about 5 seconds by itself May be your reset button is pressed on....so you better unscrew your computer and then remove the

plugged in botton that is lined from reset button (u can follow the layout diagrams inside the computer).....i think it may help you... later you can...

A diagram of the inside of my

My review is based on a Presario 5000 with a 933 MHz Pentium III, 256K L2 cache. Be aware that there are many models in the 5000 series and a lot of them are much lower powered. The

Athlon and PIII
models are the
best, though,
and came in the
highest speeds.
