As of June 29, 2020, GS1 US has acquired the Color and Size Codes from NRF. The Color and Size Codes give retailers, vendors, and manufacturers a common language for product color and size identification that supplement the master data conveyed by sharing U.P.C.s. The color and size codes are only available electronically, either from a GS1 US Solution Partner (OpenText, InterTrade, or SPS Commerce) or through a one-time download

through the GS1 US website.

### NRF | Color and Size Codes

- Assign each color variation within a particular Product ID a unique NRF color code. The first code in the color group is the “uncompared” color code designation. Use this code whenever color shades such as dark brown, rust/copper brown or light/pastel brown are not used for a vendor Product ID/Style.

## Table of Contents

The NRF has developed a set of color (3 digits) and size (5 digits) codes in order to standardize these attributes across the retail industry. The number of possible combinations allows for expansion and specialization as the industry evolves, and regular committee meetings are held by the NRF to discuss future needs and to educate about what's new and what's on the way.
